AI-Generated Insights

[WARNING] Low Savings Rate

Your savings rate of 17.56% is below the recommended 20%, indicating a need to allocate more funds towards savings and investments. Consider increasing your savings by ■1950 to reach a 20% savings rate.

Amount referenced: ■1,950.00

[WARNING] High Rent Expenses

Your rent expenses of ■45000 account for 28.0% of your total spend, which is a significant portion of your expenses. You may want to explore options to reduce your rent or negotiate a better deal with your landlord.

Amount referenced: ■45,000.00

[INFO] Recurring Payments Under Control

Your recurring payments, including EMI, rent, and subscriptions, total ■73319 per month, which is approximately 37.6% of your monthly income. While this is a significant portion of your income, it is still manageable.

Amount referenced: ■73,319.00

[WARNING] High EMI Expenses

Your EMI expenses of ■37500 account for 23.3% of your total spend. You may want to consider exploring options to reduce your EMI burden, such as refinancing or prepaying your loan.

Amount referenced: ■37,500.00

[INFO] Investment Contributions

You are investing ■24000 per month, which is a good start. However, you may want to consider increasing your investment amount to achieve your long-term financial goals.

Amount referenced: ■24,000.00
